

You & I

Tom Speight

I could lay in your love
Forever till the end of time
As the moon is sinking fast
Your lips lock on to mine

Blue jeans, washed-out tee
You put your faith in me
You don't ever have to doubt
I will love you endlessly

Nothing is forever
Except you and I
Nothing is forever
Except you and I
You and I

I could watch your brown hair flow
As you dance across the room
Feels like I dreamt this night
As we play 'Honey and the Moon'

You said that you've never felt
Like this for anyone else
Oh love, when you're near
I can be just myself

Nothing is forever
Except you and I
Nothing is forever
Except you and I
You and I

Ooh ooh...

Nothing is forever
Except you and I
Nothing is forever
Except you and I
You and I

I could lay in your love
Forever till the end of time
