

You

Tom Speight

Can't take my eyes off of you
And the way that you move
Can't see this life without you
And the things that you do

If you need heart, if you need soul
If you need anything at all
Can't take my eyes off of you
Can't take my eyes off of you

And this world don't feel as dark as before
You gave me the light to be waiting at your door
Stay a little longer here
Stay a little longer, dear

Can't take my eyes off of you
When you walk in the room
When the spotlight shines
Yeah, it shines on you

If you need hope, if you feel low
We can run away and go
When it shines on you
Can't take my eyes off of you

And this world don't feel as dark as before
You gave me the light to be waiting at your door
Stay a little longer here
Stay a little longer, dear

Can't take my eyes off of you
And the way that you move
Can't see this life without you
And the things that you do

If you need heart, if you need soul
If you need anything at all
Can't take my eyes off of you
Can't take my eyes off of you

If you need heart, if you need soul
If you need anything at all
Can't take my eyes off of you
Can't take my eyes off of you

When it shines on you
Can't take my eyes off of you
