

Beauty Is A Fading Flower

Tom T. Hall

Beauty is a fading flower tomorrow it may be gone
Beauty is a fading flower love goes on and on

Today everybody wants you brand new is better than old
Who will want you tomorrow there's beauty in your soul
Beauty is a fading flower...

You have never known love you've never learned to hate
When these emotions find you they'll leave lines in your face
Beauty is a fading flower...

Love is not all beauty love is not all form
Winter wilts the flowers love can keep you warm
Beauty is a fading flower...
