I don't know what you're doing but I like everything you do Just for a little bit baby I'd come out and dance with you

## [Chorus:]

But I can't dance and I'm feeling so good

Some of us can and some of us can't and some of us wish that we could dance

Some can't dance and I guess I'm just one of the unfortunate fe  $\ensuremath{\mathtt{w}}$ 

Just for a little bit, baby, I'd come out and dance with you

My mind is out there with you now but I can't get my body to mo ve

Sitting here falling in love, love, love thinking something I c an't prove

My soul is willing and my mind is ready but it's something that I never could do

Just for a little bit, baby, I'd come out and dance with you

[Chorus]
