

Rolling You Down

Tom Vek

I am trying to get along
Build this house for my family
Oh no, no, no
It's okay
Sit down and relax and sleep it all away
I don't really know what it should
Or how it should taste when I season it
These days are long
Oh we owe
Trying to work where we belong
Belong

I know you know, I know you know, I know you know
I know you know, I know you know, I know you know

You're amazed
How could it be so simple?

All this time
Who do I sing to?
Who do I imagine the other end of the line?
Rolling down
Rolling down
Feel the wind in your hair
Like a window
I'm rolling you down

I'm rolling you down
Like a window, I'm rolling you down
Like a window, I'm rolling you down
(I know you know, I know you know, I know you know)
Like a window, I'm rolling you down
(I know you know, I know you know, I know you know)
Like a window, I'm rolling you down
