

# Slippery Fish

Tom Vek

In a sea of people, you are that fish  
You are that slippery fish  
You can swim through the currents, like a slippery fish  
You can swim up the river now  
You can't swim through the dam  
Hard times  
You jump out of the way  
You jump out of the way

You'll just push, push against it  
Push, push against it  
Push, push against it  
Push, push against it

You'll just push, push against it  
Push, push against it  
Push, push against it  
Push, just think about it

Have you ever tried to swat a fly?  
Your eyes move at ten times the speed of regular eyes  
We are driving down the longest motorway, your car has four wheels  
Inertia on your side, inertia on your side  
You're believing, you're feeling, you're breathing clean air  
We came out of the sea  
We're climbing up the mountains now

Sustainable  
Unbelievable  
Achievable  
Fixable  
Repeatable  
Replaceable (in a good way)

All the things that led out to this

Shouldn't mean you get fed up  
All the things that led out to this  
Shouldn't mean you get fed up  
All the things that led out to this  
Shouldn't mean you get fed up  
All the things that led out to this  
Shouldn't mean you get fed up

You can just roll with the punches  
Is you, always been you  
From your perspective you are the center of your own universe  
Spinning around  
Rotating  
Orbiting  
Sit there in the middle and  
Let it orbit around you  
As we get more slippery

You'll just push, push against it  
Push, push against it  
Push, push against it

Push, push against it

You'll just push, push against it

Push, push against it

Push, push against it

Push, just think about it

Push, push against it

Push, push against it

Push, push against it

Push, push against it

You'll just push, push against it

Push, push against it

Push, push against it

Push, just think about it
