

You Need To Work Your Heart Out

Tom Vek

I know you worked really hard
Everything has it's own price
You're blowing away dust now with your words
You're blowing away dust just by talking about it

Your heart it needs a better workout
Tire yourself out before sleep
Your heart it needs a better workout
You need to work your heart out
You need to work your heart out

I know you worked really hard
Everything has it's own price
You're blowing away dust now with your words
You're blowing away dust just by talking about it

Your heart it needs a better workout
Tire yourself out before sleep
Your heart it needs a better workout
You need to work your heart out
You need to work your heart out
You need to work your heart out
