All The World Is Green

Tom Waits

```
   Bm                Em
1. I fell into the ocean
   A7                  D
   And you became my wife
   G7           F#7
   I risked it all against the sea
                     Bm
   To have a better life
              Em                  A7
   Marie you are the wild blue sky
              D
   Men do foolish things
   G7               F#7
   You turn kings into beggars
                     Bm
   And beggars into kings

      G                      D
R: Pretend that you owe me nothing
       A7                 D
   And all the world is green
   G                       D
   We can bring back the old days again
        A7                 D     D/A Bm
   When all the world is green
```
