Dominoes

Tom Walker

There's so much hate in this world
Between the lines of the pages we turn
Take to our keys to express how we feel
The internet leads to an ignorant feed
You can't believe my eyes
My heart is breaking, the race isn't done
People blaming religion for crimes
Committed by those who are losing their minds

There's still so much love on this planet
The news only shows us the damage
'Cause they're the ones with the cameras
Playing into the hands of the bandits
Still I know we've all got something to say

We just tell ourselves we're not to blame
The world's too scared to change
Let the dominos fall, woah oh oh
Let the dominos fall, woah oh oh
'Cause we've gone too far, no place to hide
We set the world alight
Let the dominos fall, woah oh oh
Let the dominos fall, woah oh oh, woah oh

We are enslaved by our grief
Dictated by media streams
We gather in numbers, we take to the streets
But only riots will be covered by the privateers
Some of you like the helpless
Born bred and sewed their acceptance
But we will find our redemption
United in peace, full objection

There's still so much love on this planet
The news only shows us the damage
'Cause they're the ones with the cameras
Playing into the hands of the bandits
Still I know we've all got something to say

We just tell ourselves we're not to blame
The world's too scared to change
Let the dominos fall, woah oh oh
Let the dominos fall, woah oh oh
'Cause we've gone too far, no place to hide
We set the world alight
Let the dominos fall, woah oh oh
Let the dominos fall, woah oh oh, woah oh

Watch it all crash, come tumbling down
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down

We let the dominos fall
Let the dominos fall, woah oh oh

Let the dominos fall, woah oh oh
'Cause we've gone too far, no place to hide
We set the world alight
Let the dominos fall, woah oh oh
Let the dominos fall, woah oh oh, woah oh
Let the dominos fall

Watch it all crash, come tumbling down (Tumbling down)
Watch it all crash, come tumbling down (Tumbling down)
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down (Tumbling down)
Watch it all crash, come tumbling down (Tumbling down)
Watch it all crash, come tumbling down
Watch it all crash, come tumbling down
