

Silver Lining

Tom Walker

I'm the glass half empty, darling
You're the glass half full
I'm 28 years old and you're still
Taking me to school

'Cause I make time for worry
You make time for joy
Life is such a spectacle
You help me see the world

You always make it better when I'm down and out
Because of you I got my life together
And I'm so grateful, darling

'Cause you're so good at finding silver linings
You always see the bright side
Make clouds turn into blue sky
When you chuckle softly, these bad vibes wash away
You make every day feel brand new but still the same

I've not always been the optimist
For you I've always tried
To pick my head out of the sand
See colour through your eyes

I took it all for granted
But now I finally see
This life is full of wonder
And that's how it's meant to be

You always make it better when I'm down and out
Because of you I got my life together
And I'm so grateful, darling

'Cause you're so good at finding silver linings
You always see the bright side
Make clouds turn into blue sky
When you chuckle softly, these bad vibes wash away
You make every day feel brand new but still the same

Ooh-ooh-ooh
Ayy-yeah-ayy
Ooh-ooh-ooh

You always make it better when I'm down and out
Because of you I got my life together
And I'm so grateful, darling
Mmm mmm
