

I Can Almost See Them

Tomahawk

Up Scope

But I can almost see them

Just out of focus, you're so far away

Right out of focus, you're so far away

Down periscope

We all need, all need some rope

But I can almost see them

Just out of focus, you're so far away

Twist the barrel, not so far away

We all need some rope every now and then

We all need some rope every now and then

But I can almost see them
