

Natural Light

Tomberlin

I got some news on you from a friend
You're in Charlotte again
Teaching Spanish at high school

He said you're going by Joy
You cut your hair like a boy
And you don't talk to your old friends

I found a picture from before the fight
We're in natural light
And you're sitting in my lap like everything's alright

I've walked around with you on my mind
The names we used at the time
You know I've changed myself since then

I've thought on the things that we said
What if we'd had the kid?
I guess he'd be fifteen

I found a picture from before the fight
We're in natural light
And you're sitting in my lap like everything's alright
