

## possessed

Tomberlin

Won't you cover my eyes?  
Won't you cover my eyes?  
I don't know who to be  
I don't know what to see  
Something's always possessed me

Won't you please sit with me  
As I figure it out?  
Figure it out  
I have nothing  
I have nothing but a head full of doubt  
A head full of doubt
