

## Be Careful

**Tommee Profitt**

Be careful, it's a mad world  
You're walking with the snakes in the grass  
Yeah it's a mean world, people crazy  
Don't ever turn your back on the night  
'Cause lurking in the shadows there are monsters  
Worse than the tigers and bears  
Living in the jungle, it's a nightmare  
Now don't say I didn't warn ya

Be careful, it's a strange world  
You're singing in a drunkard's choir  
They're grinning and they're laughing while they're lying  
Picking your bones till you're dead, man  
Walking on thin ice, in the deep end  
It's a dead-end, tread lightly on the fire  
With caution 'cause there's danger  
Now don't say I didn't warn ya

Be careful, it's a cruel world  
Poppa won't hear your cries  
'Cause it's a cold world, as it turns and turns  
You're never getting out alive  
Oh, don't be foolish, run far away from this place  
You're falling too fast into the end of days  
Be careful little eyes what you see  
And don't say I didn't warn ya
