

Can't Hold Us Down

Tommee Profitt

Freedom is calling on the other side of the wind
So we keep on walking though it tears through our skin
Feeling like a warrior that's not afraid to bleed
The fight inside's in all of us so we won't concede

You can't hold us down, no
You can't hold us down (Down, down)
You can't hold us down, no
You can't hold us down down down
Yeah, down down down
Can't hold us down

Every day's a battlefield between the light and the dark
Angels and demons try to tear us apart
Heavy on our shoulders is the weight of the world
But it makes us stronger though the pain it burns

You can't hold us down
We never give up
Walking through the fire and the flame
Can't hold us down
'Cause when the going gets tough
We're tearing through the metal chains
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down down
Can't hold us down

You can't hold us down
You can't hold us down
You can't hold us down

You can't hold us down
We never give up
Walking through the fire and the flame
Can't hold us down
'Cause when the going gets tough
We're tearing through the metal chains
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down down
Can't hold us down down down
Yeah, down down-
Can't hold us down
