

Caught In The Fire

Tommee Profitt

The sirens ring out
The violence pours down
Heat rises and blood falls
Eyes blinded, hope seems gone
But we'll make it out alive

We're caught in the fire
And it burns right through the bones
We're down to the wire
No it won't leave us alone
Oh it haunts our days
And the fear won't fade
Feeling swallowed by the smoke
We're caught in the fire
But we'll make it out alive

They've rattled, our hearts
But survival is ours
We'll make it out alive

We're caught in the fire
And it burns right through the bones
We're down to the wire
No it won't leave us alone
Oh it haunts our days
And the fear won't fade
Feeling swallowed by the smoke
We're caught in the fire
But we'll make it out alive

Alive, alive
But we'll make it out alive
Alive, alive

We're caught in the fire
And it burns right through the bones
We're down to the wire
No it won't leave us alone
Oh it haunts our days
And the fear won't fade
Feeling swallowed by the smoke
We're caught in the fire
We're caught in the fire
We're caught in the fire
But we'll make it out alive
But we'll make it out alive
But we'll make it out alive
