

I'll Carry You

Tomme Profit

Did you fall asleep with your eyes open?
And did you lose your way as darkness creepin' in?
Did something terrible leave you in a wasteland?
Did you feel it in your bones like life slipped right through y
our hands?
I won't let you down, I won't let you down

I'll carry you
I'll carry you
I'll carry you

It's gonna be alright, let me be your hero
I can light the way, let me lift you from the shadows

I'll carry you
I'll carry you
I'll carry you

'Cause I'll fight your wars, don't worry no more
Weary soul, when your demons break through
I'll carry you

I'll carry you
I'll carry you

'Cause I'll fight your wars, don't worry no more
Weary soul, when your demons break through
I'll carry you

And I'll carry you
I'm gonna carry you
I'm gonna carry you
I'll carry you
