

# I'm Not Afraid

**Tommee Profitt**

You strangled me like an addiction  
You captured me like an affliction  
And I will be nimble and I will be quick  
I will overcome all of this

The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)  
The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)

There are monsters outside and they're waiting  
There are vultures in line salivating  
And though it is dark in the dead of night  
I never go down without a fight

The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)  
The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)

Everything changes when the sun goes down  
Everything changes when the sun goes down  
Everything changes when the sun goes down

The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)  
The shadows are falling they're falling, they're falling around  
me (I'm not afraid, not afraid)  
The wolves are closing, they're closing, they're closing in on  
me (I'm not afraid, not afraid, I'm not afraid)  
I'm not afraid, not afraid  
I'm not afraid, not afraid, I'm not afraid  
I'm not afraid, not afraid
