

# My Domain

Tomme Profitt

Struck my heel and I felt you bruise it  
I bled from the side that you wounded  
Bit my tongue until I got through it  
Cause I, I'm indestructible

This is my domain (domain)  
You're in my kingdom now  
This is my domain (domain)  
No one can it tear down  
This is my domain (domain)  
You're stepping on my ground  
It's live or die my way  
Inside the walls of my domain

Built on every scar that you gave me  
Tore my body into what made me  
The hell you put me through is what raised me  
Now I, I'm indestructible

This is my domain (domain)  
You're in my kingdom now  
This is my domain (domain)  
No one can it tear down  
This is my domain (domain)  
You're stepping on my ground  
It's live or die my way  
Inside the walls of my domain

I-I-I, this is my domain  
I-I-I, this is my domain  
I-I-I, this is my domain  
I-I-I, you're in my domain

This is my domain (domain)  
You're in my kingdom now  
This is my domain (domain)  
No one can it tear down  
This is my domain (domain)  
You're stepping on my ground  
It's live or die my way  
Inside the walls of my domain

This is my domain (domain)  
You're in my kingdom now  
This is my domain (domain)  
No one can it tear down  
This is my domain (domain)  
You're stepping on my ground  
It's live or die my way  
Inside the walls of my domain

It's live or die my way  
Inside the walls of my domain
