

# Only For You

**Tommee Profitt**

I've been waiting my whole life  
To stand here dressed in white  
Only for you  
I have dreamed a thousand times  
Of walking down the aisle  
Only for you

Take my hand we'll run like lovers do  
Taking chances is easier with you  
Every moment led us here, it's true  
God only knew  
I've been waiting  
Only for you

Something happened when we met  
Life turned on its head  
Only for you  
Those three words when they were said  
They were always meant  
Only for you

Take my hand we'll run like lovers do  
Taking chances is easier with you  
Every moment led us here, it's true  
God only knew  
I've been waiting  
Only for you

All my love for you  
(All my love, all my love is for you)  
All my life I do  
(Well, all my life I do)  
All my love for you  
(All my love, all my love is for you)  
All my life I do  
(All my life, all my life I do)

I've been waiting  
I've been praying  
I've been waiting  
Only for you

God only knew  
I've been waiting  
Only for you
