

Shadows

Tommee Profitt

No one knows what's underneath the shadows
Underneath the shadows secrets hide

No one knows what's underneath the shadows
Underneath the shadows secrets hide

Snakes in the garden
Leaves on the blade
Flesh turning heartless
Wolves changing shape

Dance in the darkness
Under the moon
Don't close your eyes too soon

No one knows what's underneath the shadows
Underneath the shadows secrets hide

No one knows what's underneath the shadows
Underneath the shadows secrets hide

These secrets hide

Cries from the fallen
Wings torn in half
Mind filled with oceans
Lost in the black

Skin feels the coldest
Covering the truth
Watch how the lips turn blue

No one knows what's underneath the shadows
Underneath the shadows secrets hide

No one knows what's underneath the shadows
Underneath the shadows secrets hide

Smoke and mirrors
Nothings clearer
Rabbit holes they
Take us deeper

No one knows what's underneath the shadows
Underneath the shadows secrets hide

No one knows what's underneath the shadows
Underneath the shadows secrets hide

No one knows what's underneath the shadows
Underneath the shadows secrets hide
Secrets hide
Secrets hide
