

Sleeping With A Ghost

Tomme Profitt

I lie awake, I never sleep
I remember dreaming
You and I, like satellites
Drifting never speaking

We were the wrong thing, baby
And it drove me crazy
I don't know you lately
You left me, you left me

Sleeping with a ghost
Sleeping with a ghost
Sleeping with a ghost
Sleeping with a ghost

I know you're gone
I heard you leave
Slipping down the staircase
Left a note
And just like that
History was erased

We were the wrong thing, baby
And it drove me crazy
I don't know you lately
You left me, you left me

Sleeping with a ghost
Sleeping with a ghost
Sleeping with a ghost
Sleeping with a ghost

Oh you left me, my darkest places
My darkest places
My darkest places
Oh you left me, my darkest places
My darkest places
My darkest places

Sleeping with a ghost
Sleeping with a ghost (I'm wide-eyed and tongue-tied)
Sleeping with a ghost (I'm wide-eyed and tongue-tied)
Sleeping with a ghost, ghost
Sleeping with a ghost
