

# Spiral

Tommee Profitt

I feel my heart beating faster  
One step away from disaster  
I burned my soul at the altar  
Watching my smoke turning blacker

Once you take this path  
You can't go back  
(No no no)  
Don't know how this goes  
And when we'll crash  
(Oh oh oh)

Who can escape the spiral spiral  
The hole in the earth is a mile wide  
Who can escape the spiral spiral  
Twisting and turning  
I feel the whole world spiral  
Twisting and turning  
I feel the whole world spiral  
Twisting and turning  
I feel the whole world spiral

Walking the ground of the ancients  
Crossing the lines that were sacred  
Watching our innocence taken  
Have we become the forsaken

Headed into the abyss  
Thrown off the edge of the cliff how is it coming to this  
The fall is visceral  
Here at the end of days  
My body's laying to waste  
I need to find an escape  
Or I might lose my soul

Spinning out  
Everything is blurry now  
Don't know who to trust  
Blood lust from the wicked now

Sirens going off in my head, eyes turning red  
Knife in my flesh  
Might be a friend  
Fangs in the skin

Further  
(I don't know where it goes)  
Down the spiral  
(Its a dark dark road)  
Vicious cycle  
(It's outta control)  
Losing vitals

Who can escape the spiral spiral  
The hole in the earth is a mile wide  
Who can escape the spiral spiral  
Twisting and turning

I feel the whole world spiral

Whole world spiral

Whole world spiral
