

Takin Over

Tommee Profitt

Yeah, yeah-eh
Takin' over
Yeah-eh
Takin' over

For too long they tried to hold us down
We rising up, we gon' win
Look at us, we in the gutter now
But we'll see who stands at the end
I'll keep it 100, we coming, we coming
He cracking the sky and they don't even know
Loadin' them bullets, we gunning, we gunning
That six-six we be letting it go, rrrat
Hammer be clapping the catapult
Out in the jungle with animals
I got my ammo tho
Busting they cantaloupes
They all infected but I got the anecdote
I got the anecdote
But they don't want it, they don't want it
They ain't living, I'ma get it
Tho they spit in my face
Bruh, I know that I'm winning I let 'em do it
They don't know what I been in, woo
And if I wanted I could light 'em all up
When that sun shine it gon' light 'em all up
Loving the haters, You know what I'm saying
I give 'em the truth until they decaying
I'm raising high, yi yi
And I ain't playing

We takin' over, we takin' over
Takin' over, takin' over, takin' over
From the ashes we rise, from the ashes we rise
We takin' over, takin' over, takin' over

This is not a game, this is not a lie
I am not afraid, you can take my life
I'm about to raise, I'm about to fly
Skip a 9-5, this a 9-9
From a.m to a.m, I'm working for more
My frequency is better
Former felon 'til he broke the tether
They like Oh lord
I'm a living witness
Bruh, I'm rising up, go on flip the switches
I'ma light it up, got the ammunition
And the show ain't over, this is intermission
Yeah, I'm fired up, woood
Levitating never fading
I'ma say it, know the Greatest
I ain't playing, I am raising
Never decay-caying
I ain't paying
Forever, I win-win, yeah, I'm in
And this ain't a game now
I bring it for real I'ma lay it down

They told me to kill, they gon' feel it now
I'm killing the track 'til the killers found, killers found
They tried to put us on the bottom
The gutter but we the ones who at the top
And I love it, I love it, I love it
You know where I'm from and bring the heat
'Til they feeling 'em sunnin' like, woos
We about rising up

We takin' over, we takin' over
Takin' over, takin' over, takin' over, yeah
From the ashes we rise, from the ashes we rise
We takin' over, takin' over, takin' over

We never gonna quit, goin' to the end
Rising to the top, we 'bout to win
Never gonna quit, goin' to the end
Rising to the top
Takin' over, takin' over
We never gonna quit, we taking over
We goin' to the end, we taking over
I'm about to fly, we taking over
From the ashes we rise

We takin' over all, we takin' over all, we takin' over all
We takin' over, takin' over, takin' over
From the ashes we rise, from the ashes we rise
We takin' over, takin' over, takin' over
