

Vagabond

Tomme Profitt

Where is your home, vagabond?
Where do you go when you don't belong?
Head held high but your soul is down
Where is your home, vagabond?

You pass people and faces you don't recognize
Like past feelings and places you once brought to life

Oo-oo-oo
Where is your home, vagabond?
Where is your home when it all is done?
Can't put down roots 'cause it won't last long
Everything here will all be gone
Where is your home, vagabond?

Endlessly lost from dusk till dawn
Orphan before you were ever young
By crawl lights lead you on and on
Breathing in worlds that you don't belong

You pass people and faces you don't recognize
Like past feelings and places you once brought to life

Oo-oo-oo
Where is your home, vagabond?
Where is your home when it all is done?
Can't put down roots 'cause it won't last long
Everything here will all be gone
Where is your home, vagabond?

Searching on and on, always on the road
Searching on and on, always on the road
Searching on and on, always on the road
Searching on and on, always on the road

Where is your home, vagabond?
Where is your home when it all is done?
Can't put down roots 'cause it won't last long
Everything here will all be gone

Where is your home, vagabond?
