

Warriors

Tommee Profit

Yeah, yeah

Together we stand, divided we fall
Came together proven stronger than ever before
Raise the torch high, light the world up
Conquer the opposition never been no competition
You see the vision so relentless with' the mission
We paint the picture so vivid
Wippin work, like we so driven
So different, championship with' it
Handle it with' the mind state dismantle it
This here the second coming, the new genocide
Rampage full of renegades on this side
Pride full of lions waiting for the right time
Lighting up the dark with' this little light of mine
Many pieces one goal like a chess game
Aim then we let it bang till it catch flame
We are not the same
We some warriors!

We the warriors
Yeah, we goin' up
Hype out lights out when we showing up
Yeah, we here to bring 'em out ain't no slowin' up
We the ones to shut it down we don't foldin' up
We the warriors
We the squad with' no fear
Boy we here taking over with the victory
We making history
So consistently
Call us to come out to play
We the warriors

Yeah, ain't no stoppin' the unstoppable
Problem is when we all together that's a problem
King Leonidas with the sword 300 strong
Strength in the outnumbered live it till I'm dead and gone
Came to set it off
Hey, let's get it poppin'
Gear ready armor on how we get it rockin'
Time to clock in with the work go bizzerk
Stand up for calling
Ain't no limit when we all in!

We the warriors
Yeah, we goin' up
Hype out lights out when we showing up
Yeah, we here to bring'em out ain't no slowin' up
We the ones to shut it down we don't foldin' up
We the warriors
We the squad with' no fear
Boy we here taking over with the victory
We making history
So consistently
Call us to come out to play
We the warriors (Warriors, warriors, warriors)
