

Watch Me Now

Tommee Proffitt

I been all on the bottom
Understand the whole game
Watch me swerve in the mix
I am in every lane
Y'all all are the same
Everybody so lame
But I'm back for my shine
Get outta the way

I been here, I been there, movin, movin
Y'all talk that game, do it, do it
I been waitin for this moment
See me, Imma come back, I am on it
Every knee hit the ground, time to bow
Eyes red, all full of fire
Time to shine, time to shine, yuh

Watch me now
Watch me now
Watch me now
Everybody talk, I just get it done (watch me now)
Everybody talk, I just get it done (watch me now)
Everybody talk, I just get it done (watch me now)
Watch me now

Pullin off the [?]
Whole squad, I'm the man
Sparks fly, let 'em rain
We ain't even on the fence
Run it, whole crew, we aim, we gun it
Bang bang, light shine, we sun it
I told 'em it's all real, but they don't want it

We back now with that major move
They all know we ain't aim to lose
We back in, back in, we don't ever back down
We makin moves, yuh
See the haters tryna hold us down?
I see the end comin

Watch me now
Watch me now
Watch me now
Everybody talk, I just get it done (watch me now)
Everybody talk, I just get it done (watch me now)
Everybody talk, I just get it done (watch me now)
Watch me now
