

You Made Me Do It

Tommee Profitt

What shall I do?
It's me or you
You crossed the line now
So this has to go down
Your breath on my skin
Eyes filled with sin
Three seconds more and
Blood will be pouring

I don't want to hurt you
But I have no other choice too
I'm sorry about this
But you made me do it
Yeah, you made me do it
Damn, you blew it
Yeah, you made me do it

You broke my trust
And blew in dust
Like bribes on my face
That can't be erased
You leave me no choice
You can't avoid
The consequences
I've left you defenseless

See, I don't want to hurt you
But I have no other choice too
I'm sorry about this
But you made me do it
Yeah, you made me do it
Damn, you blew it
You made me do it

Unforgivable
Caught you red handed
Every stunt you pulled
Can't understand it
Now you're gonna pay
Say goodbye today
Here's the bet you made
You made

You made me do it
You made me do it
Damn, you blew it
You made me do it
You made me do it

You made me do it
