No pink Ferrari  
No Maserati  
She pick me up in her Audi  
Circa early ninety  
I couldn't get a kiss  
Just a little hit  
Of that blunt that she rolled  
Strawberry cheesecake  
I can make your knees quake  
If you gave me a chance  
Back in 2020  
Like Lavigne said  
I'm your skater boy now  
You in the crowd looking up  
At the girl that you turned down

Cherry pop, cherry, cherry  
Cherry pop, cherry, cherry, cherry  
Cherry pop, cherry, cherry  
Cherry pop, cherry, cherry, cherry

Used to wanna be a perfect daughter  
Can't show skin, I'm a playboy model  
You can't sin when you hit that throttle  
Life's so fast, we want walker back  
I take a pass at something that I know won't last  
Those eyes that laugh, that G-string ass  
Those diamonds on her now  
And she wanna sit it down  
Yeah, she wanna sit it down  
Those diamonds on her now  
Yeah, she wanna sit it down  
Yeah, she wanna  
Yeah, she wanna
