

I wanna get up in my car and drive  
Goin' 80 in the 45  
Top down with the open sky  
I got a feeling I don't feel alright  
But if you call, I'll turn this thing around  
If you want me back, you know I'm down  
If you call, I'll turn this thing around  
If you want me back, you know I'm down

Yeah, I know you're crazy, but you know  
You are still my baby, oh, you know  
What would make you say that? Oh, you know  
What would make you come back?  
Scared that you love me, are you scared that you trust me?  
Put no other one above me, put no other one above me  
Are you scared that you love me, are you scared that you trust me?  
Put no another one above me

I saw you last night, something ain't right  
What did you do? It's all about you  
Telling me lies, like why did you lie?  
You know that I see, you blame it on me  
I saw you last night, something ain't right  
What did you do?  
I saw you last night, something ain't right  
What did you do?

I wanna get up in my car and drive  
Goin' 80 in the 45  
Top down with the open sky  
I got a feeling I don't feel alright  
But if you call, I'll turn this thing around  
If you want me back, you know I'm down  
If you call, I'll turn this thing around  
If you want me back, you know I'm down

I'm the realest, you're a realist  
I'm not a scene girl, but I'm scenic  
In the end it is you and me  
In the end it is fantasy  
In the end it is what we need  
Some come on, baby, call me

I wanna get up in my car and drive  
Goin' 80 in the 45  
Top down with the open sky  
I got a feeling I don't feel alright  
But if you call, I'll turn this thing around  
If you want me back, you know I'm down  
If you call, I'll turn this thing around  
If you want me back, you know I'm down
