

Execute

Tommy Genesis

Crucifixion on my back
Your bitch fixated on my past
She un-equated to my pack
I'm running wolves, God we made it
Subjugated like syntax

They gonna take me to court for my vision
Take me to court, them chains don't hold
Take me to court, them chains
They gonna bring to the stand all my women
Flock to the stand, they stand on me
Flock to the stand, they stand
They gonna try to restructure my wisdom
Try as you may, you try too hard
Try as you may, you try
They gonna pray to my God, but he cashed out
Pray to my God, he cashed out
Pray to my God, he cashed out

Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
I'm just executing my vision

They tryna execute my vision, I'm just executing my vision
Execute my, execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
Ex, ex, execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision

Rub-a-dub, fucky in the club with your headphones
Bored muthafucker in the bath with the tattoos
Big ass flipping those bubbles down the drain pipe
Grow up, smelling like that cotton candy kush, ripe
Pit bulls looking through the fence while I drive by
Garage door propped open, lemonade stand, pie
Big blue lips, lick, thinking, I drive slow now
Get a good look at his chest and his ho now
Turn a corner, left, down the road to the suburbs
Call me up later saying nothing but the love words
You was standing in the yard with your sister
Don't fuck a weak bitch 'cause they always gonna snitch you

They tryna execute my vision, I'm just executing my vision
Execute my, execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
Ex, ex, execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision
They tryna execute my vision, I'm just executing my vision

They tryna execute my vision, I'm just executing my vision

Wait, I do wheelies in the parking lot of Safeway
Bitches, all hooped earrings in the backseat, smoking blazey
I be mad, she learnt I ain't fucking with no rubber
Tell a dolphin lady bitch, big nose and the blubber
I'ma put down all my cards, I'm the value
She gon' wait her turn, it's too late, I'm the value
Big whoop papi, I still hear you calling mami
It's a new world order, you ain't fucking with my family

You see there's leaders and there's masters
I'd rather be a snake than a ladder
You see, there's leaders and there's masters
Yeah I'd rather be a snake than a ladder
You see there's leaders and there's masters
But I'd rather be a snake than a ladder
You see, I'd rather be a snake than a ladder
You see, I'd rather be a snake than a ladder

They gonna take me to court for my vision
Take me to court, them chains don't hold
Take me to court, them chains
They gonna bring to the stand all my women
Flock to the stand, they stand on me
Flock to the stand, they stand
They gonna try to restructure my wisdom
Try as you may, you try too hard
Try as you may, you try
They gonna pray to my God, but he cashed out
Pray to my God, he cashed out
Pray to my God, he cashed out

Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
Pray to the God, I fall down
Pray to the cash, it fall down
Pray to the cash, it fall down
