**Tommy Genesis**

If I was alone in the corner of the night club would you say hi  
If I had nowhere to go on the bus just riding the high  
If I had a dollar to my name and got fucked up would you walk b  
y  
If you saw a picture of my face would wonder what I was like

Your love is like a hurricane coming  
Your love is the reason that I'm falling apart  
Your love is like a bad reunion  
Your love feels a lot like hate in my heart

Hurricane  
Hurricane  
Hurricane  
You rock me like a  
Hurricane  
Hurricane  
Hurricane

Do I remind you of your ex  
Does she fuck good  
What was she like  
Do you like the freckles on my neck  
Or my gap tooth should we get high  
Acting like my best friend  
Taking me for granted  
Blowing up on my nightstand  
You are from a past life  
You don't even act right  
I don't need your gaslight

Your love is like a hurricane coming  
Your love is the reason that I'm falling apart  
Your love is like a bad reunion  
Your love feels a lot like hate in my heart

Hurricane  
Hurricane  
Hurricane  
You rock me like a  
Hurricane  
Hurricane  
Hurricane
