(Tommy?)
(Tommy)
(Let's Go)

I'm the type to take your money, take your soul
I leave no fingerprints, I leave no fingerprints
(Fuck with me girl) (Ah)
I'ma lick it really juicy when you ooze
I need a peppermint, I need a peppermint
(Fuck with me girl) (Ah)

I'm the bitch that's born again
In my bag on the cover of magazines
No flex cause I'm underground and mainstream
I'm next but not part of the hypocrisy (Ah)
I'm that bitch that makes fetish rap
I talk a lot weird shit and they copycat
Lick my dick in circles on my abdomen
They call me Adam, Eve and Genesis (Tommy)

I'm the type to take your money, take your soul
I leave no fingerprints, I leave no fingerprints
(Fuck with me girl) (Ah)
I'ma lick it really juicy when you ooze
I need a peppermint, I need a peppermint
(Fuck with me girl) (Ah)

Brown girl, no it's not a tan
World Vision was my first then gave birth to twins
Was the shepherd of my flock but graduated to king
(Tommy) brought crop circles to the earth again (Ah)
I walk away but can't escape my shoes
I can bleach my hair but can't escape my roots
You can love me from afar but can you swallow the truth
It's a big thick dick coming after you (ah)

I'm the type to take your money, take your soul
I leave no fingerprints, I leave no fingerprints
(Fuck with me girl) (Ah)
I'ma lick it really juicy when you ooze
I need a peppermint, I need a peppermint
(Fuck with me girl) (Ah)

Fucked up and nothing to believe in
Wallpaper talking to me seeing
Things I live only in my memory
Maybe my spirit left it's entity

I'm the type to take your money, take your soul
I leave no fingerprints, I leave no fingerprints
(Fuck with me girl) (Ah)
I'ma lick it really juicy when you ooze
I need a peppermint, I need a peppermint
(Fuck with me girl) (Ah)
