(Tonight, you're mine.)

(Tonight, you're mine. Take your time.)

(Tonight, you're mine. Take your time.)

Take me so far away. I don't care any more.

Can't hear a word you say. I just wanna love you some more.

Girl, when you're next to me and you're holdin' me tight, you are the best for me.

Love's right in my face. It's so close I can taste it. It's love and that makes it alright.

I don't know where it's goin'. My weak side is showin'.

Baby, I didn't mean to love you, Amy, baby, I do.

(Tonight, you're mine. Take your time.)

(Tonight, you're mine. Take your time.)

Streamin' like fireflies, we light up the night

Flyin' through paradise and aren't we a beautiful sight? Ooh.

When you do love with me, I'm a movie star: street lights and fantasy.

I love lookin' at you and watchin' a natural angel, cause that's who you are.

I don't know where it's goin'. My feelings are flowin'.

Baby, what else can I do? Amy, baby, I love you.
