

Make This Storm

Tommy Lee

We gon' do the damn thing
Do it right
We gon' do it right
(Can we do it?)
Yeah, we gon' do it

Showin' late to the party
Neither one of us sorry
We gonna find each other
And we prolly gonna leave together
Ain't a cloud in the sky
We gon' get super high 'til we fly away
Till we fly away

(Even with this storm)

Maybe we shouldn't say that we're better than but
Yeah, I think we are better than them
Yeah, we, yeah, we, yeah, we are

Though you say very little what you do say is right
If I may can I pull you little closer tonight
Ain't no rain but the thunder stay between you and I, yeah
There's so much electricity but you worth the risk
All the lights in the city can't show off more than this
Everything else put it on hold we livin' in bliss, yeah

Let's forget about the drama, please
We don't got time
Let's just get wild
For the night

(Even with this storm)

Maybe we shouldn't say that we're better than but
Yeah, I think we are better than them
Yeah, we, yeah we, yeah, we are

Though you say very little what you do say is right
If I may, can I pull you little closer tonight?
Ain't no rain but the thunder stay between you and I, yeah
There's so much electricity but you worth the risk
All the lights in the city can't show off more than this
Everything else put it on hold we livin' in bliss, yeah

(Even with this stormy night)
(Even with this)

(Even with this stormy night)
(Even with this)

(Even with this stormy night)
(Even with this stormy night)
