

## Garden

Tommy Lefroy

Nothing hurts in Williamsburg  
Your friends were out of town  
There's a lake on the roof  
There was rain in my shoes  
When I said, "Am I allowed?"

Mister, tell me how to feel  
Came all this way to miss the meal  
Your promises were made to break  
Your parables were my mistakes

All this "it was only you"  
Where were you when I needed proof?  
You made up the race  
You'll finish either way

All I do is want to  
All I do is want to

Nothing hurts  
I'll get to work  
I'm your salt of the earth  
I'm your carrier bird  
Buttoned up and replete  
Sell the dream back to me  
Like you thought of it first  
Like you live for the words

Mister, tell me how to feel  
Came all this way to miss the meal  
Your promises were made to break  
Your parables were my mistakes

All this "it was only you"  
Where were you when I needed proof?  
Girls are at the gate, sir  
What's it gonna take?

All I do is want to  
All I do is want to

Mister, tell me how to feel  
Mister, tell me how to feel  
How to feel

Mister, tell me how to feel  
Mister, tell me how to feel  
How to feel

I'm the blame for the fall  
I'm the ache in your side  
When you feel extra tall  
I'm the hill where you hide  
But you live in your froth  
That I'm coming for you
