

## Jericho Beach

Tommy Lefroy

I grew up when TV changed  
Jesus saves and runs away  
Carson got his fifteen minutes  
For being friends with the kid who did it  
And I have dreams where I'm still trying to park at Jericho Beach

I got out and ran away  
Nobody came, nobody

After all this waiting  
Seismic renovation  
Gutted out the whole thing  
But kept the presentation  
So I figured I could probably do the same

You pick me up, it's far away  
You need me for the carpool lane  
I'm obsessed with what you're saying  
Take me out tonight is playing  
And I can't believe you and you won't convince me either way

I'll be yours until we're dead  
You said it first, you said

After all this waiting  
I was gonna save it  
I was only practice  
You were gonna waste it

So I figured I should  
Wake up and walk home  
But the pavement is a portal  
Then I'm sixteen and I don't know  
How to handle being mortal  
Being rivals on the ride home  
Staying someone that you don't know  
But I'm still trying  
And I'm still trying  
And I'm still trying  
And I'm still trying  
And I'm still trying

I thought you wanted me this way  
(I thought you wanted me this way)  
(I thought you wanted me this way)  
(I thought you wanted me this way)
