

Vampires

Tommy Lefroy

I-I know you
I-I know you

Buying garlic at the grocery the morning of Halloween
'Cause you're catching a cold and you're trying to get clean
But I joke with the store clerk
"We're looking for vampires"
And she fucking believes me
L.A. is crazy
I'm biding my time here
But I don't wanna die here
Clouds in our lungs
The hills are on fire here
Don't worry if he never calls, there's worse, we've survived

And you can fall in love a thousand times
I just want for you to love your life
I just want for you to not think twice
When somebody asks if you've been doing alright

And I-I know you
I-I know you
I-I know you
I know you feel everything

But don't mind the darkness, the ice or the nightfall
Don't worry the plane won't go down out of Montreal
Things you can't explain, the stars and the hurricanes
Could've swallowed you up but you got to stay
You say "I've got a feeling I don't what it is yet"
Maybe somebody's God gave you some kind of mission
Don't worry yourself, don't you know you're gonna be fine
You're gonna be fine

And I-I know you
I-I know you
I-I know you
I know you feel everything

And I know, and I know, and I know, yeah
I know, and I know, and I know, yeah
I know, and I know, and I know, yeah
I know, I know you feel everything (I-I know you)
I know, I know

You can fall in love a thousand times
I just want for you to love your life
I just want for you to not think twice
When somebody asks if you've been doing alright

And I-I know you
I-I know you
I-I know you
I know you feel everything

But if ever you're out there and can't beat the vampires
Just know that I've got you

Just know it gets better
