

FEVER

Tommy Richman

You and I
Couldn't even try to hold on together

That's right
I'mma tell your bitch she's mine
I'mma take you down to the corner store
After that oh man she's riding (man she's riding)
On that, on that

I got friends as good as you
Temptation
You're the only one with clothes on
Man
How bad is that, is that?
Yeah, you know how I act
Yeah, you know how I act
I can't do it

Can't you just fucking have an idea girl?
Oh na na na na
There's a reason I talk to you on every occasion girl
But you're not giving me anything
Anything
But you're not giving me anything
Got many demons in my head that I want you to hear about
Can you just talk to me?
Can you know my whereabouts?
Got a problem
Got a problem

Had to figure out
Had to figure out just how to do by myself
Don't know many ways
But I know the days have gone
Just overthinking
I'm overthinking
But I need someone beside me right now
Had to figure out just how to do by myself
Don't know many ways
But I know the days have gone
Just overthinking
I'm overthinking
But I need someone beside me right now

That's right
I'mma tell your bitch she's mine
I'mma take you down to the corner store
After that oh man she's riding (man she's riding)
On that, on that
On that, on that
On that, on that
On that, on that
On that, on that
