

## Aggravation

Tommy Roe

There's temptation when I'm around you,  
It's frustrating i can't resist you, baby, it's aggravation

We'll go walking, and you condemn me, won't stop talking, won't  
let me kiss you, baby, it's aggravation

You won't let me take you where there's people, and there's dancing,  
and there's laughing, and they're having lots of fun.  
You're not even thinking of me, you won't even say you love me anymore.

There's no use in me even trying, you're refusing to understand  
me, baby, it's aggravation

You won't give me half a chance to prove my love for you, but still  
you're jealous when i go out on my own.  
You're so mixed up it's contagious, and i think that it's outrageous,  
baby

There's no use in me even trying, you're refusing to understand  
me, baby, it's aggravation, oh baby, it's aggravation, it's aggravation,  
it's aggravation, etc..
