

How Good

Tommy Tutone

How good is a good thing?
How strong can one heart beat?

Words can't describe the way you make me feel, babe
No one's ever been here before
You got me up, down, down, up
Anyway you want me, baby
I know I want some more
'Cause I'm barely hanging on
'Cause your love is so damn strong
You done changed my point of view
About what good love can do

How good is a good thing?
How strong can one heart beat?

Every time I look at you
I don't know what to do
Girl, you really opened the door
You got my motor running
My heart is double drumming
I can't wait for more
But I'm barely hanging on
'Cause your love is so damn strong
You done changed my point of view
About what good love can do

Yeah, I'm barely hanging on
'Cause your love is so damn strong
You done changed my point of view
About what good love can do

How good is a good thing?
I'll bet you're gonna show me
How good is a good thing?
How good is a good thing?
