

How Much You Mean to Me

Tompi

Girl, you say sometimes I'm so far away
There's a reason why it seems that way
The picture that I see, of you and me
It's larger than this life
Sweeter than our strife, this you'll see

You've given me, so much
And its enough, for two
Eternity, is on my mind
Know this, is so true
You fill all my senses
Without any defenses
I feel so loved, yet I feel so free
Baby, I found you

If I can't say it in words
Than I'll say it in my song
But you really have to know
How much you mean to me
Cause I never mean to hurt
I could never do you wrong
But you really have to know
How much you mean to me

Girl, you bring the best the rest we'll find in time
When I say I am yours, it isn't just a line
With you, baby, I can do it all
I am just so sure that you'll be there, I found you

I like to fill you up with love
To make you feel the way I do
Sometimes I see it coming true
Can we keep this love, forever new

If I can't say it in words
Than I'll say it in my song
But you really have to know
How much you mean to me
Cause I never mean to hurt
I could never do you wrong
But you really have to know
How much you mean to me
