If It's True

Tompi

For the last time let me hear it from you
If that is right you take another way to go
Living my love across of your heart
Even it hurts, I will twist the truth

At this moment I feel so much pain
You took my heart and you just threw it all away
Every time we fight you just don't care
You never want to look

You won't try to make it up
Make it up, make it up, make it up
You won't try to make it up

You won't try to make it up
Make it up, make it up, make it up
You won't try to make it up

No no no
You won't try to make it up

Baby, if it's true
You don't love me anymore
I won't stand up for this love

Baby, if it's true
You don't love me anymore
I won't stand up for this love

Love... at this moment I feel so much pain
You took my heart and you just threw it all away
Living my love across of your heart
Even it hurts, I will twist the truth

Baby, if it's true
You don't love me anymore
I won't stand up for this love

Baby, if it's true
You don't love me anymore
I won't stand up for this love
