

No Matter What You Do

Tompi

If only I could say
That I'm not your slave
If only I could tell you
That you can't control me
If only I can be
An independent man
If only you could see
How miserable I've been

But the night will turn to day when you're around
And tomorrow will be so yesterday
Baby, I just know that I would love you more
No matter what you do, no matter what you do to me

If only I could say
That I'm not your slave
If only I could tell you
That you can't control me

But the night will turn to day when you're around
And tomorrow will be so yesterday
Baby, I just know that I would love you more
No matter what you do, no matter what you do to me

Oh, the night will turn to day when you're around
And tomorrow will be so yesterday
Baby, I just know that I would love you more
No matter what you do, no matter what you do to me
