

# Be Quiet

Tone Stith

You got a lot to say lately  
You got a lot up on your mind  
You got a lot you doin', baby  
I just need a little time  
To explain what's been goin' on  
But your impression of me got me wrong  
Grab you a cup, now pour a drink up  
And don't say another word (Shh, shh)

Quiet  
Don't say nothin', just hear me out (Shh, shh)  
Quiet  
Don't say a word, I'm talkin' now (Shh, shh)  
Quiet  
Don't say a word, just hear me out  
I need you to be quiet  
Don't talk, no more  
Don't talk no more, just let it go, oh, oh-oh

You got a lot of nerve, baby  
Gonna tell me what to do  
You the one been actin' crazy, baby (Baby)  
I just wanna know the truth (Ooh, ooh)  
Who's Natasha, Kelly, Michelle? I wanna know  
Yeah, gave you the world and you put me through hell  
It's time to go  
And I ain't all in your business  
But the lies you tell I can't get with  
See I'm about to get a lil distant  
No, I don't wanna hear it

Quiet (Yeah, ayy, yeah)  
Don't say nothin', hear me out (Shh, shh, hear me out)  
Quiet  
Don't say a word, I'm talkin' now (Shh, shh, talkin')  
Quiet (Quiet, oh)  
Don't say a word, just hear me out (Oh, ooh-woah)  
I need you to be quiet  
Don't talk, no more  
Don't talk no more, just let it go, oh, oh-oh

Oh, yeah  
We should stop talkin', baby  
You should turn sideways, yeah-yeah  
Too much back and forth, you should spend another night in my place  
Oh yeah  
Put that energy between the sheets  
I'ma put my tongue between your knees  
Baby, you should know I know what you need, yeah, ayy, ayy, yeah, oh  
It's been a long day, I don't really wanna fight, alright?  
I get a little tongue-tied, you know what I like, let's ride  
You show me the way, I show you the speed  
If it's not the place, I can bring you peace  
I got what you need, I got what you need  
Yeah-yeah
