

Energy

Tone Stith

That's how it starts, you already know
How it's goin' down when we both alone
Lay out your cards, to me you can show
I'm the only one, I know what I'm doin'
Take it all out on me
And baby, you can have it, anywhere you ask it
I can handle baggage, girl, don't be foolish
If you let me shoot, I'ma follow through it
Oh, oh-oh, oh, oh, oh, hey

Legs touch your shoulders when I'm hittin' that
Turn around, flip it over, now it's hittin' back
Did I get you goin'? This convo been flowin'
Come closer, girl

You can keep it comin', comin' for me
Comin', comin' for me
You know I can get it done
Tell me all the things you want
Oh, you can keep it comin', comin' for me
Comin', comin' for me
Don't hold your love
Let it open up, you can keep it comin'

None of your exes gave you the respect that they should've
Know you regret, all of them nights that could've
Spendin' with me
When that body talk, I'm listenin'
When it's all over, I'm still here as your friend
I'm not leavin' if it's not in your bed
Tell me what you thinkin'? Let me get in your head
It's you on top of me
All your fantasy, put it all on me
Oh, oh-oh, oh, oh, oh, hey

Legs touch your shoulders when I'm hittin' that
Turn around, flip it over, now it's hittin' back
Did I get you goin'? This convo been flowin'
Come closer, girl

You can keep it comin', comin' for me
Comin', comin' for me
You know I can get it done
Tell me all the things you want
Oh, you can keep it comin', comin' for me
Comin', comin' for me
Don't hold your love
Let it open up, you can keep it comin'

Open up and show me how to love you
You can say exactly what you wanted
These those type of feelings, you can trust them
There ain't no rush
Wake in your arm
I already know it
I got enough for both of us
Don't think about it too much

No, oh, oh-oh, oh, ooh, ooh, ooh, ooh

You can keep it comin', comin' for me

Comin', comin' for me

You know I can get it done (Ooh)

Tell me all the things you want

Oh, you can keep it comin', comin' for me (Yeah, yeah)

Comin', comin' for me (Yeah, oh)

Don't hold your love

Let it open up (Oh), you can keep it comin'

Yeah, yeah, yeah, yeah

Ooh, oh-oh, oh, woah

Oh, oh-oh, oh

Baby
