

# Every Hour

Tone Stith

I think about it every second, every minute, every hour  
I love the way your body looks when you come fresh up out the shower  
I know your day was long, but the night is young  
Go 'head and shake it off, Ima turn you on  
And I can tell you want it by the way you walked in  
So go and get ready, ready cause it's coming off babe

Cause I wanna do it to you every single hour  
Darling, feel so good, good when I lay your body down  
I wanna do it with you every waking hour  
Get it on on on, baby til the morning with you  
Get it on on on, baby til the morning with you

I think about it every day, every week, every month  
I think about it in my sleep, I just can't seem to get enough  
Just let me know when you coming over  
Cause I can't wait to put it on you, can you feel me now  
And I can tell you want it by the way you walked in  
So go and get ready ready cause it's coming off babe

Cause I wanna do it to you every single hour  
And it feel so good, good when I lay your body down  
I wanna do it with you every waking hour  
Get it on on on, baby til the morning with you

Baby til the morning with you  
Baby til the morning with
