

Get It Right

Tone Stith

Had to get it wrong just to get it right
Had to leave them other girls all alone just to get it right
I told you I'll buy you anything that you want once I get it right
If I'm wrong, I'ma get it right

I'ma get it, right baby
Oh better yet
I'ma give you life baby if that's what you want
I'ma take my time with you, catch a vibe with you
All them other girls, can't do nothin' with it
See shawty got ass for days
But you done made me change my ways
All them up to know now is just a phase
I know you don't got no time to waste

Had to get it wrong, just to get it right
Had to get them other girls off my phone just to get it right
I told you I'll buy you anything that you want, let's just get it right
If I'm wrong, I'ma get it right

Yeah I'm done doin' you wrong, baby
All the nights you've spent alone feeling
Like you're by yourself, while I laid with someone else
And I know it ain't worth it baby, you shouldn't be hurting, baby
You're too damn fine
Bring that ass back right here one time
We can go slow
Oh baby let me show you, I'll be right here for you

Had to get it wrong just to get it right (I had to get it, right baby)
Had to leave them other girls all alone just to get it right
I told you I'll buy you anything that you want once I get it right
If I'm wrong, I'ma get it right

Girl, it just doesn't feel right when you're not with me here
And nothing out there can top what you got with me hey (you know it, baby, no, no)
'Cause I done did wrong, I done messed up in the past
Let you walk up out my life before, but now I need you back
And I don't what you thinkin', I need you to know
Imma do it right this time, I will never let you go

Had to get it wrong just to get it right
Had to leave them other girls all alone just to get it right
I told you I'll buy you anything that you want once I get it right
If I'm wrong, I'ma get it right

I'ma get it, right baby
