

# I Need You

Tone Stith

Like the birds need the sky  
Like the minutes tell the time  
I wish I could rewind  
Cause I need you  
Like a flame to a fire  
You're my burnin' desire  
Even though it's been a while  
I need you  
Don't know what you on babe  
But I hope it's not too late  
Already on the way, forgive me  
But that body was calling me  
Been ringing all-day  
So hard to turn it down  
Oh baby, I, I need you

Took some time to realize  
That I need you  
I need you  
I, I need you  
Took some time to realize  
That I need you  
I need you

Like a psychedelic drug  
Girl, I free your mind  
'Memberin your thighs, reminiscing time  
Like a alpha dog, girl I'm taking charge  
We be out in Paris, fucking in McLaren's ohh  
It get real in the field  
Gotta know who you playing for  
I be sittin' back, watching from the sidelines  
Baby call the play, checkin' in tonight  
Don't know what you on babe  
But I hope it's not too late  
Already on the way, forgive me  
But that body was calling me  
Been ringing all-day  
So hard to turn it down  
Oh baby, I, I need you

Took some time to realize  
That I need you  
I need you  
I, I need you  
Took some time to realize  
That I need you  
I need you
