

Let Me

Tone Stith

I'm not with, I'm not
I'm not with that, I'm
I'm not with that girl

Baby, it's your day
Go upstairs and get ready
Put on something that you like
Whatever we do I'ma make sure it sits right with you, oh yeah
Tell me what you need babe
Everything is guaranteed baby
I know you're tired of working day and night
So put your bills and all your problems to the side baby, yeah yeah

Where you wanna go, I got you baby
What you tryna do, girl take the lead
For sure
I'm gon make it happen, sit right back relax baby
Where you wanna go, I got you baby
Whatcha wanna do, it's all on me
For sure
I'm gon make it happen baby
Sit right back relax, let me

Let me follow your lead babe
Imma take the backseat
We can ride around, lay it out on the beach
Or take it out of town, out of bounds, out of reach
Cause I, I'll do anything for you
In my eyes, all I see is that you deserve it girl
Cause you deserve the world
So baby let me know

Where you wanna go, I got you baby
What you tryna do, girl take the lead
For sure
I'm gon make it happen, sit right back relax baby
Where you wanna go, I got you baby
What you wanna do, it's all on me
For sure
I'm gon make it happen baby
Sit right back relax, let me

Hold the door, baby let me
Take my hands, pull you close, you should let me
Listen to just what your body's saying
It's telling me

Where you wanna go, I got you baby
What you tryna do, girl take the lead
For sure
I'm gon make it happen, sit right back relax baby
Where you wanna go, I got you baby
What you wanna do, it's all on me
For sure
I'm gon make it happen baby
Sit right back relax, let me

Baby you should sit right back relax, let me
Just let me
